github.com/leonkoome4-rgb

Frontend developer focused on building responsive web apps using React and JavaScript. Experienced with APIs, UI design, and collaborative Git workflows.

### TECHNICAL SKILLS

HTML5

CSS3

JavaScript (ES6+)

React.js

Tailwind CSS

Git & GitHub

REST APIs

Node.js (basic)

Express (basic)

MongoDB (basic)

### PROJECTS

#### Game & Movie Browser App — Vision X / Play Hub

- Built a React app for browsing games and movies using RAWG and TMDb APIs
- Added search, filtering, and dynamic UI rendering
- Practiced GitHub collaboration with branches and pull requests

#### Find a Doctor Near You App — Hospital 1

- Built a location-based web app to help users find nearby doctors and clinics
- Used API integration and map-based search (OpenStreetMap / Google Maps concept)
- Implemented filtering by specialty, distance, and availability

#### AI / NVIDIA API Experiment App

- Built a small frontend tool experimenting with AI APIs (NVIDIA AI services concept)
- Tested API responses for text generation and image processing ideas
- Focused on learning API handling and async JavaScript

#### Fintech / KCB Banking Simulation App

- Built a mock banking app inspired by KCB-style financial services
- Simulated deposits, withdrawals, and transaction history
- Practiced secure UI design and data handling concepts

#### Portfolio Website

- Personal responsive portfolio showcasing projects and skills
- Mobile-first design and performance optimization

#### Task Manager App

- CRUD application with local storage
- Task filtering and state management

### EDUCATION

#### Software Engineering — Certificate/Diploma Path

Moringa School, Nairobi · 2025 – Present

### EXPERIENCE

#### Frontend Developer — Student Projects

- Built multiple web applications using React and vanilla JavaScript
- Worked with APIs and GitHub workflows
- Improved debugging and UI design skills

### SPORTS

#### Rugby Player

- Developed teamwork, discipline, and leadership through competitive sport

### STRENGTHS

Problem solving · Teamwork · Fast learning · UI/UX awareness  
· API integration
